

High utility bills?

Get up to **\$8,000** back for home energy upgrades!

Why upgrade now?

Find out about “whole house” upgrades

Many homes leak hot air in the winter and trap heat in the summer, making us crank up the heat or air conditioning to be comfortable. It's like watching hard-earned cash fly out the doors, windows and ceilings of inefficient houses.

For example, if your house is hot and stuffy and you think you need a new air conditioner, you can seal and insulate your house first to keep the heat out. Think of your house as a complete system working together—a “whole house”—rather than individual elements. You'll save on air conditioning bills and may even need a smaller new unit than you had before.

When sealing and insulating your house, your Energy Upgrade California contractor can also identify ways to save more energy and get more rebates for:

- Wall insulation
- Energy-efficient heating and air conditioning systems
- Energy-efficient windows
- Cool roofs
- High-efficiency storage gas or tankless water heaters
- Energy-efficient hardwired interior and exterior lighting fixtures
- Other energy-efficiency improvements that are permanent to your house

\$ Rebates/Incentives Available

Your rebate or incentive depends on how much energy your improvements save. You can receive (first-come, first-serve basis):

- Up to \$2,000 for basic sealing and insulating.
- Up to \$8,000 for more extensive upgrades
- Additional rebates may be available for specific upgrades — go to the website below and click on the “Rebates and Incentives” tab.
- Rebates may vary depending on utility provider

T Participating Contractors

Licensed, participating Energy Upgrade contractors are experts in energy efficiency. They can perform a complete energy assessment, which can help ensure you get the most out of your home energy efficiency upgrades and receive all of the rebates and incentives you're eligible for. And there's an independent quality assurance program to help ensure top-notch work.

i Innovative Financing Options
