

ATEWAYS TO GREEN BUILDING

Attention Unemployed Construction Workers

Gateways to Green Building is a FREE skill enhancement training program for those who live in one of the following zip codes: 90746 90247 90248 90249 90250 90260 90303 90304 90002 90003 90007 90011 90037 90044 90047 90058 90059 90061 90062 90220 90221 90222 90262 90275 90280 90501 90502 90710 90717 90723 90731 90732 90744 90802 90803 90804 90805 90806 90807 90810 90813 90814.

Graduates with construction backgrounds can use their Gateways to Green Building training to apply for work as a:

- Building Trade Apprentice
- Home Energy Retrofit Technician
- Sustainable Development Technician I
- Weatherization Technician

We are currently looking for students to start our next class in August.

Individual courses will include:

- Blueprint for Workplace Success
- Multi-Craft Core Curriculum Basic Construction Training
- Environmental Literacy
- Certified Green Building Professional
- Weatherization and Energy Efficiency Retrofit Fundamentals
- Sustainable Development Technician

For more information, please call Brenda Ramirez at (310) 970-7700
or visit www.gatewaystogreenbuilding.com.

Zip code-eligible students may also qualify for free Building Performance Institute (BPI) certification courses-with all test fees paid- conditions apply.

An equal opportunity employer/program. Auxiliary aids/services are available upon request to individuals with disabilities.

Funded under the State of California Clean Energy Workforce Training Program and Managed by the South Bay Workforce Investment Board
