

FREE Greywater Workshops

Learn about the benefits of using rainwater and greywater to create an affordable household water system that dramatically reduces water use and can play a critical role in drought resilience.

Saturday, September 8, 2018
9:00 am - 12 pm

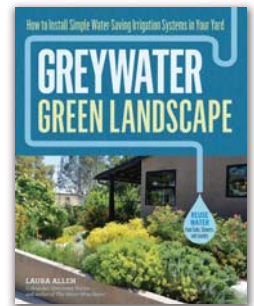

Madrona Marsh Preserve and Nature Center
3201 Plaza del Amo
Torrance, CA 90503

To register call (310) 371-7222
or go online to SBESC.com

First 30 people to register get a free book!

Workshops are taught by the Ecology Center. They are experienced in teaching low-tech, urban and sustainable water solutions.

Part 1 - Rainwater 101

Overview of our water supply system • Rainwater harvesting systems • Common types of systems • General costs and water saving potential • Design considerations • Rainwater resources

Part 2 - Greywater 101

What is greywater? • Ways to reduce greywater (covers plumbing code) • How the laundry-to-landscape system works • Installing the L2L system • Estimating how many plants to irrigate • Maintenance & system costs • Greywater resources
